Summary

Infrastructure manager with nine years running enterprise estates and the security programmes around them. Currently responsible for a 750-person logistics operation across four countries, leading a team of five.

Experience

Infrastructure & Security Manager - Halden Cargo AG, Berlin · March 2019 - present

Own the full server, storage and network estate for 750 staff across four countries. Lead five engineers: two infrastructure, two service desk, one security. Run the information security programme end to end - annual risk assessment, ISO 27001 surveillance audits, and the awareness training everyone takes each year. Designed and delivered the Active Directory consolidation when we merged two domains after an acquisition, moving 1,400 accounts with no unplanned downtime. Escalation point for major incidents, including a ransomware attempt in 2022 that was contained at the perimeter.

Senior Systems Engineer - Weser Technik GmbH, Bremen · June 2015 - February 2019

Windows Server and VMware estate for a manufacturer with 400 users on three sites. Rebuilt the backup and disaster recovery arrangement after a failed restore test, cutting recovery time from two days to four hours. Managed Cisco routing and switching and the Fortinet firewall estate. First point of contact for the external auditors.

Systems Administrator - Ostsee Handel, Rostock · August 2013 - May 2015

Day-to-day administration of Windows Server, Active Directory and the VPN estate for 180 users. Ran the hardware refresh across two sites.
